

# Malina Benchea

## Student

I am looking for a job through which I can amplify my knowledge and computer skills and make use of my abilities learned both in college and by myself. I enjoy meeting new people and facing new challenges. I am a dependable, organized person who always shows up on time and never turns in an assignment later than when they are due.

## PERSONAL PROJECTS

The Hangman (05/2021 - 05/2021)

- A JavaFX implementation of the "Hangman" game, with connection to a database containing the names of all player and their scores. The game is using the Jsoup library in order to offer "hints" to players, which they may purchase by using earned points(definitions or synonyms).
- Github repository: <https://github.com/Roxxz/PA-Project-WordGames-.git> ;

Paste It(PIt) (03/2021 - 05/2021)

- A pastebin-like website, where users may paste their Code, choose a syntax highlighting, an expiration date, a "burn after read" option, password encryption. Users may send links to their pastes and enter other's points.
- Github repository: <https://github.com/Hristealonut/PIt.git> ;
